

HASSAN ARSLAN

Full Stack Developer

Lahore, Pakistan | 03254794440 | webwithhassan@gmail.com | hassanarslan.dev

SUMMARY

BSCS student and full stack developer with hands-on experience independently designing, building, and deploying production web applications using the MERN stack and PHP. Comfortable owning a project end-to-end, from database design through frontend UI to live deployment.

SKILLS

Languages: JavaScript, Python, PHP, C++

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, PHP, REST APIs

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman, Vite

Currently learning: Django, Django REST Framework

PROJECTS

RG Tour & Travels | rgtravels.pk

- Independently designed, built, and deployed a Hajj & Umrah travel agency site end-to-end, from database schema to frontend UI to production deployment
- Built package comparison across multiple maktabas and hotel tiers with live PKR pricing, plus testimonials, blog, and certifications sections to establish trust for a high-value booking decision
- Stack: React, Node.js, Express, MongoDB

Fitness Zone | fitnesszone.ltd

- Designed and developed a women's wellness membership platform end-to-end, replacing scattered WhatsApp groups with one dashboard
- Implemented authentication, live workout session scheduling, and bookable 1-on-1 specialist consultations across three distinct service paths
- Stack: React, Node.js, Express, MongoDB

EDUCATION

Bachelor of Science in Computer Science (BSCS) — In Progress
